

8th International Building Physics
Conference Copenhagen Denmark

IBPC 2021

25-27 August 2021

Call for abstracts

Researchers within building physics are invited to submit abstracts for the 8th International Building Physics Conference 2021 (IBPC 2021), which is hosted by the Technical University of Denmark (DTU) 25-27 August 2021.

Be sure to submit your abstract by the deadline of 30 November 2020.

IBPC 2021 welcomes abstracts within the following thematic groups:

Physics - heat, air, moisture, light/daylight, building acoustics

Objects - materials, building envelope, whole buildings, indoor/outdoor environment

Sustainability - energy efficiency, durability, circular construction, climate

For more information, registration and deadlines visit www.ibpc2021.org

IBPC 2021 unites researchers and practitioners from the construction industry worldwide. We meet to share new research, demonstrate innovative and sustainable building technologies and discuss current and future challenges and solutions within building physics. The conference will include technical sessions, keynote speakers, workshops and networking events. IBPC 2021 is organised by the Technical University of Denmark in cooperation with Aalborg University, Aarhus University, University of Southern Denmark and Lund University.
